

Fitting Instructions 290

Ford Focus RS Tailored INDOOR Car Cover - 2009 Onwards

Thank you for purchasing your cover from our family-run business.

- Before putting the car cover on your vehicle, ensure it is clean and dry. This avoids any abrasion from dirt between the vehicle and the cover
- Place the clear plastic covers over each of the 4 black plastic clips sewn on to the cover (see Figure 1)
- Place the cover over your car being mindful of the wing mirrors. The front and rear hems are elasticated
- There are two side-to-side under-body straps. Use the separate straps supplied to snugly secure down the cover

Figure 1 – Clear cover installed over black plastic clip
